

STORAGE RACK SUBMITTAL Requirements

Plans & Permit Information

CHECK LIST FOR STORAGE RACKS AND PERMANENT FLOOR-SUPPORTED CABINETS AND BOOK STACKS MORE THAN 6 (SIX) FEET HIGH AND FLOOR-SUPPORTED EQUIPMENT WEIGHING MORE THAN 400 LBS.

To obtain a building permit, submit four (4) sets of plans (**17' X 22' minimum**).
Please include the following:

_____ SITE PLAN

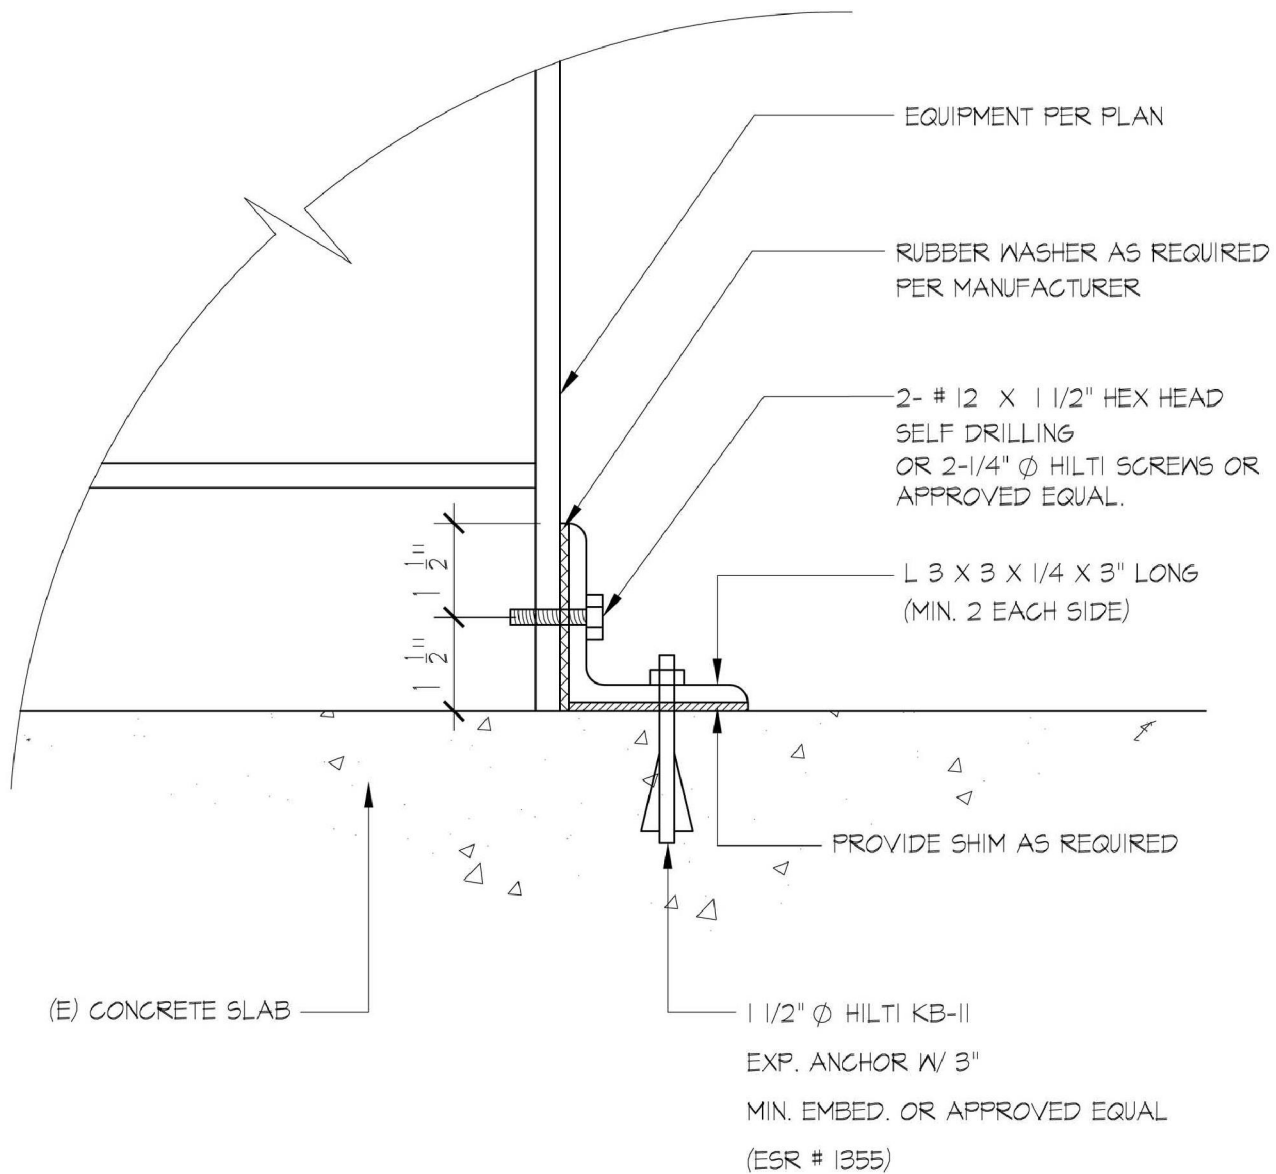

- Scaled plan showing a vicinity map, building, site parking & North Arrow.
- Define a brief “Scope of Work” through an outline text format.
- Must show building data: construction type, square footage, occupancy classification and sprinklers.

_____ FLOOR PLAN

- Identify the specific area within the building where the permit activity is occurring.
- Define space function (i.e., storage, manufacturing, etc.)
- Show location of shelves and/or equipment, details, exiting path and dimensions.

_____ STRUCTURAL SUBMITTAL

- Identify area of work by highlighting the area and enlarging if necessary. (Details must be clearly readable, samples attached).
NOTE: Please **do not use this sample** on your submittal; the drawing must pertain to your actual work.
- Plans shall be wet-stamped by a State of California licensed engineer.
- Two sets of wet-stamped and wet-signed calculations are required.
